The chief charge against this nominee is that he is not a Demount in good standing, but has frequently bolted the ticket. The other case was that of Albirt M Stearns, nominated to be Appraiser of Merchandise for the District of Boston & Churlestown. He held the once under Mr Clevelands first term and when he was again appointed charges of irregularities in the conduct of his office was made by I ouls A. Bodga who succeeded Mr Stearns.

The committee found nothing in these charges and ordered a favorable report on the normation.

We dried average might to assert an whether his would allow his rank to he used as a cardidate and were told of his decision. (Insequently he informed the dregation that wired upen him Wednesday might that he would are NO CIRCUNSIANCES by a candidate for repointmention for Mayor.

Now that Mayor Beal has made has decision the field is left open to the other candidates who have been mentioned to present Hon Joab W. Laliur seems to be the only man whose name is prominently monitioned as the party s. Ludier in the spring campaign. There is not sliderable that however before the can cus will be held and there are likely to be others desirous of the office who will inter the lists for the Miyoralty nomination.

over which the Mayor contends that he has no control but to which he sent word made practically the same announce ment, only somewhat stronger, than was made in 1111 Wille in accordance with what every member of the delegation un derstood to be the Major s wish Now then we ask in all fairness why has the attempt been made to show that int Willio misrepresented the position taken by the Mayor, or that it sought to select the caucus candidate? It did nelther On the other hand when Mr Cameron decided to "enter the lists for the Mayoralty nomination" THE WHILE at once stated the fact. Did the paper with which Mayor Beal is connected do a similar act of courtesy for Mr Cameron? If so

This controversy is not one of our seeking. We have repelled the impertinent attack, as untrue as it was uncalled for, made upon THE WHIG in the col umns of the paper in which the Mayor is interested, as well as his own incorrect interview in the same paper It depends solely upon the Mayor to determine how long this sort of thing is to be continued We certainly shall not submit to misrepresentation in this matter and that is just what has been attempted.

The speculation concerning possible changes in the Cleveland Cabinet has at lest taken definite form. For some time past remors have been in circulation to the effect that Postmaster General Bissell was going to resign, but were immedistely followed by what was given out as has taken place, however, and Congress-man Wilson, of West Virginia, has been
